

At 7:30 a.m. Big Foot came to life because he was bored. At 7:30 a.m. the Big Foot came to life to show me how strange he was and how big he was. He was 12' 4". He picked up a car. He lifted a big rig.

He took me and brought me in the woods and said "do you want to have breakfast". We ate breakfast. He made a fire place. We ate eggs, bacon, and waffles.

Then we went to the park from 9:00 a.m. to 6:00 p.m. He had to go back in his book to be read. He left at 6:00 p.m. He said he would see me again. We had fun.

Wow!! I actually spent a day with a monster. I had a lot of fun. Shane

Today, the hulk jumped out of my book to help me fight crime. When he jumped out I had already been fighting some little gargoyles. 10 gargoyles tear down the city. We all use hands and feet.

Then when we did get out he had almost killed every bad guy, I knew to fight. The town was destroyed. There were two bad guys left. We saved family and friends.

Finally, we went to eat pizza at Pizza Hut. He ate Pizza Hut. We bought pepperoni and sausage. We drank sweet tea.

I took a long nap and when I woke up he was gone forever and ever. Dakota

On my birthday Molly jumped out of my storybook to wish me a happy birthday. When Molly came she had four wrapped boxes and a puppy in her arms. The boxes were for me. I named the puppy spot. We played all afternoon.

That night Molly and I could not go to sleep. We were constantly giggling. My mom told us if we didn't go to sleep we could not play with spot tomorrow. So we talked and giggled silently.

The next day Molly told me about the rest of the American Girls. She told me their favorite activities. She took me to visit them for a little while, until mom came. We had so much fun.

I had so much fun those two days that I cried when Molly left. She told me she would be back by Christmas! So she walked through the door and disappeared. Shelby

Last week I found "Norton Juster" broken down on the side of the road in his car. As I was running down the road "Norton Juster" popped up in front of me. He was dancing because he was scared. He is afraid of little kids.

"Norton Juster" and I went to the ballfield, because he and I like baseball. We went to the ballfield to watch a game because he loved baseball.

When my day was almost over we went to get some ice cream as a good bye gift. He liked ice cream. We had fun. We were both tired and wanted something to cheer us up.

I really had fun with “Norton Jester”, I hope that someday we can do it again. We had fun because we did a lot of stuff. It was exciting.            Laura
