

Fourth Grade October Scary Tales

Last night I had a terrible dream. I had to go into a witches house. She had green hair. Her face was all green and it mached her hair. She was tall and not very fat. She did not know how to talk right so it was hard to understand her. She hit her head on the cabinet and started yelling. She had a wand and was planning to turn me into dinner. I told her that I would not tased good but she did not care. She said that if I did not tased good she would give me to the dogs and if they did not like me she would take to the garbage disposal. She had a knife and started cutting me up to pieces. She cut me up and put me in a pot and cooked me. I got out by while she had her back turned I squarmed away before she noticed. She was very mad. I was very scared. That place was nasty. Good thing I made it out but not in one whole piece. Rebecca

If I would trick-or-treat anywhere. I would go to Honda of Morristown. One of the Honda's had flat tires and a blown engine, so I did not know that the engine blew and I bought the car. I got in and tried to start it up and it would not start, so I got out and went in the dealer to ask what was wrong. There was a line to the counter, so I was looking at my car and then it took off and no body was in the car, so I chased the car, it was never seen since. Ryan

My best friend and I were going home on Halloween night when suddenly the moon started talking to us. It had this rough voice. But it was very nice of him to just talk to us instead. I was afraid that it was going to yell at me. All it did was tell us about his life. Instead it just told us about the sky and other things. It said, "at night I love watching the starts twinkle so bright," and he was very happy. I'm so glad that he told us how he felt just being up in the sky. Jacob
