

## Downloading a PowerPoint Presentation from the Web

1. Click the download file name. A File Download window will appear:

2. Click the Save button. A Save In window will appear. Click the dropdown arrow to select where the file will be stored on your computer.

3. Click Save and the download will begin. Notice the file name.
4. To view the file, find the file name on your computer in the folder or the disk you used when saving it.
5. Double click the file name. It will open the appropriate software for viewing.
6. To view the PowerPoint, click Slide Show...View Show. Press enter to progress through the presentation.
